

PPI Online E-Survey System (POES)

Launched in April 2017 by the Singapore Department of Statistics (DOS), the PPI (Producer Price Indices) Online E-Survey System (POES) offers respondents participating in PPI surveys a convenient online platform to submit the survey returns.

Not only is the POES easy-to-use, all submissions through POES are secure and kept in confidence. During each survey period, respondents will receive an email notification to submit their survey returns via the POES. Respondents who have CorpPass¹ accounts may submit the survey returns via the POES.

A respondent could fill up the online survey form or save a draft copy for completion at a later time.

Alternatively, a softcopy of the survey form may be downloaded for completion off-line and uploaded when it is completed.

Respondents are welcome to contact the officer-in-charge of the PPI survey for any queries.

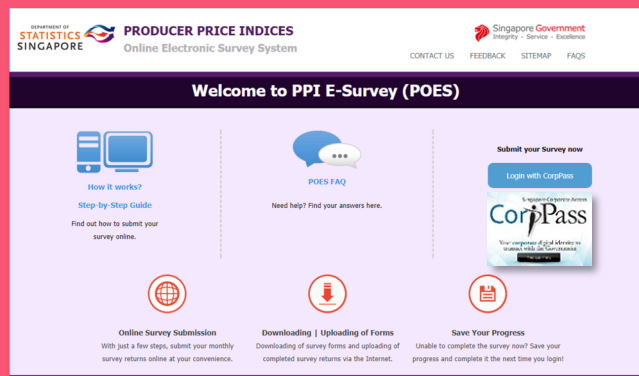

Visit the POES portal for more information!

¹ CorpPass is a corporate digital identity for businesses to transact with Government agencies online. For more information on how to obtain a CorpPass account, visit www.corppass.gov.sg.

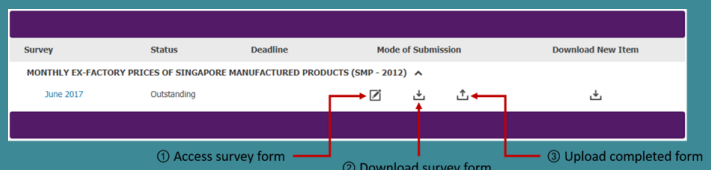

1 Logging in

You will be presented with this screen when you access the POES. Click on the blue button to login with a CorpPass ID.

2 My Surveys

Survey forms are customised for each respondent. Once logged in, you can ① access your survey forms, ② download the forms, or ③ upload the survey forms when these forms are completed.

3 Submitting My Forms

After entering the price information, you may ① submit the form, or ② save your work in progress and return to complete the survey later.
